

# Epson EH-TW5200

## DATASHEET

15,000:1

2W

2000 lm

1080p

Whether you're looking to upgrade your home entertainment system, or want to experience your video games on a much larger, brighter display, the EH-TW5200 is ideal for you. This Full HD 3D projector offers bright, vivid colours, high definition 2D and 3D projections without picture lag and a long-lasting lamp – all in a slim, lightweight design.

### Gaming graphics

The EH-TW5200 delivers a 15,000:1 contrast ratio and is enhanced by Epson's 3LCD technology for high definition 2D and 3D images on a big screen. You no longer have to sit in the dark to see what you're doing during the day, thanks to an equally high White and Colour Light Output of 2,000 lumens.

### Big screen entertainment

The screen size ranges from 30 inches up to 300 inches, and can be adjusted to project a straight image effortlessly with keystone correction. This means you don't need large open areas or to clear a lot of space to enjoy.

### No lag time

Switching to 'fast mode' means that fast-paced football games or online multiplayer video games are projected smoothly and accurately. With no lag time, the action is projected without delay – important for tournaments or matches that need split-second reaction times.

### MHL support

The EH-TW5200 offers a wide selection of connectivity options, including one HDMI - MHL port. This means that not only can you play Full HD content, but also videos, music and photos from your smartphone and tablet.

## KEY FEATURES

- 2,000lm White and Colour Light Output
- 3LCD Full HD technology
- MHL connectivity
- 2D and 3D projections
- Switch to 'fast mode' for gaming
